After logging into your account, simply hover over the accounts tab, and in the drop down menu, click Interest. Once on this page, you will see two tables, one for Year ending June 2019, and the other for Year ending June 2020. The 2019 table gives you the amount of interest earned for each of your accounts over the past financial year. The 2020 table shows a progressive amount of your interest the last time it was paid out.
