Select the account you would like to transfer the money from, then type in the reference which you would like displayed on your statement. Then you have the option of selecting an account you have previously transferred to and saved, or paying to a new account. Next, write down what you would like the payment to be described as. To save a new account, add in a 'Nickname' under the option "Nickname for future use". Add in the amount you would like to transfer, and then either schedule it for the future or pay it straight away.
